DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

- (b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.
- 2. Claims 1-23 are rejected under 35 U.S.C. 102(b) as being anticipated by Ollison.

 Ollison shows an automatic sprayer having a container for holding a reservoir of water and for also housing a battery compartment 124 and a control panel which accepts user setting through dial 192 (see figure 10). The sprayer also shows to hoses for watering to separate events (see figure 3a).

Conclusion

3. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Chou, Skaggs, Snyder, Peeters et al., Scott, Wolput all show devices in the general art of the invention.
